

MARKETING

raw materials, products, energy

CUSTOMERS

industry, local authorities, private individuals

STORAGE

recyclables, residual materials, hazardous waste –
acc. to type, optimised distances & volumes

ADVICE

MATERIAL FLOW MANAGEMENT

ASSESSMENT OF MATERIALS & QUALITY ASSURANCE

RESEARCH & DEVELOPMENT

RECYCLING

By recovering raw materials, REMONDIS is helping to keep materials circulating and to reduce the use of virgin raw materials.
It uses a range of modern processes and digital solutions to achieve this.

DEVELOPMENT & REALISATION OF PROCESSES

classifying, conditioning,
supply

RECYCLING

sorting, bulking up, removal
of hazardous substances

PRE-TREATMENT

collection, transport,
transhipment

LOGISTICS
